Testimonials
What Our Clients Say

"The BEST in the south"

Ronnie
Google Review

Very professional and very friendly. I love the way they treat customers. That is why I listened to the suggestion of the Service Advisor and the Workshop Supervisor.

The teamwork of this shop is very good. I will recommend this to our company so that all our service vehicle will all be bring here for PMS.

Google Review

This Auto Repair shop in Balibago, Sta. Rosa City is located along Sta. Rosa–Tagaytay Road. Mechanics, Staff, and other personnel are very accommodating and respectful to customers.

It's my second time here for our three company cars' maintenance. So for, services here is at its best compared to other repair shop I've been before.

Christian Alinsod
Google Review

I was about to leave for Paranaque yesterday when I noticed that my right front tire was flat. I Googled for the nearest service center. When I called, they got my details and didn't waste time in traveling to my place to change the flat tire. It was then they found out that the tire was totally damaged, so I gave them a go signal to bring it to the service center and work on it.

Communication was great and customer service was beyond excellent! Not to mention too that they really did a very good job in changing what needed to be changed! Thank you to the staff who were so accommodating. I highly recommend this auto care place!
